

# RELIABLE EMERGENCY POWER SYSTEMS

Securing uninterrupted operations.

SERVICE

# SECURE THE UPTIME OF YOUR EMERGENCY POWER SYSTEM

## 24/7/365

**Minimize disruptions and keep your equipment running smoothly with our comprehensive range of services.**

Throughout the entire lifecycle of your system, you can count on our Nordic team of specially trained service technicians to take responsibility, allowing you to focus on your core business.

Improved Reliability

Reduced Maintenance Costs

Increased Productivity

Optimized Performance

#### SERVICE AGREEMENTS

## CUSTOMIZED MAINTENANCE

We offer customized maintenance plans for your system.

You can choose from a selection of standard or tailor-made service agreements for your installations within the scope of supply. Our agreements are based on ideal maintenance plans for your system and can be adapted to suit your specific needs.

- **Low response time**
- **Secured uptime of your system**
- **Increased availability of your system**
- **Swift and easy access to spare parts**

#### SPARE PARTS

## CRITICAL COMPONENTS ACCESS

Fast and easy access to spare parts with BOS Power service.

Our warehouses across the Nordics and quick market access allow us to provide standard parts within hours and special parts within days.

As a distributor of *mtu*, our stock is online with *mtu*'s global network of spare parts and can normally be shipped within one day.

You have the option to either purchase spare parts in advance or sign up for a service agreement. If you have a service agreement, we handle the spare parts and deliver them to you within an agreed response time.

- **Increased uptime and availability of your system**
- **Reduced risk of costly disruptions**
- **Reduced complexity and costs in your supply chain**
- **Specialized technical support**

EXTENDED LIFESPAN

# ENVIRONMENTAL PERFORMANCE

## ENVIRONMENTAL SERVICE

Our focus on environmental service extends the lifespan of your emergency power systems through upgrades and modernizations.

Regular preventive maintenance ensures reliability and longevity while minimizing long-term costs.

Our specialized environmental service enhances performance and sustainability.

## COMPREHENSIVE SERVICE REPORT

A comprehensive analysis of your installation is conducted to assess its current condition and identify areas for improvement.

Based on this analysis, you will receive a detailed environmental report with recommendations for upgrades and modernizations, ensuring that your system meets current environmental standards.

## BENEFITS

### Reduced Emissions

Up to 40 % reduction in emissions

### Extended Lifespan

Up to 50 % extension of system lifespan

### Increased Reliability

Up to 30 % reduction in unexpected failures

### Improved Efficiency

Up to 20 % increase in system efficiency

## SYSTEMATIC APPROACH FOR OPTIMAL PERFORMANCE UPGRADES

- **Initial Assessment:** Identify improvement areas.
- **Detailed Analysis:** Examine critical components.
- **Environmental Report:** Recommend upgrades.
- **Implementation:** Ensure minimal disruption.
- **Ongoing Maintenance:** Maintain efficiency and sustainability.
