# DISCOVER THE FUTURE OF MARINE PROPULSION

Servogear`s new U-type and PTI Gearbox Solution  
with raised aft input.

Our latest **U-type and PTI Gearbox Solution** offers unparalleled benefits making it a must-have for modern marine propulsion systems.

## THE BENEFITS

- Compact design optimized for shorter engine rooms
- Easy & cost-effective installation
- Reduced vibration risk
- Perfect for hybrid vessels

At Servogear, we pride ourselves on innovation that enhances the efficiency and performance of marine vessels.

## PERFECT FOR HYBRID VESSELS

Our **PTI Gearbox Solution** is perfect for hybrid configurations, seamlessly integrating one electric motor and one diesel engine.

**This setup offers an eco-friendly and efficient propulsion system, combining the best of both worlds for optimal performance and sustainability.**
